TESTIMONY OF THOMAS MCCANN MULLOOLY

Senator Lassa and members of the Committee, I want to thank you for considering my appointment to serve on the board of the Wisconsin Aerospace Authority. I would like to thank Governor Doyle for nominating me and Senator Kohl for making a recommendation on my behalf to the Governor.

I am very interested and willing to serve on the Wisconsin Aerospace Authority board. My background in aerospace activities includes a longstanding interest in space exploration and the aerospace industry. As a member of Senator Kohl's staff earlier in my career, I had some opportunity to help nurture Wisconsin's role in the exploration of space and the development of our aerospace industry. I kept the Senator abreast of the developments in Wisconsin, including at the Wisconsin Center for Space Automation and Robotics and the work being done by UW scientists at the Space Science and Engineering Center in what was then called NASA's "Mission to Planet Earth." I took the lead for the Senator on a successful effort to protect funding for the Wisconsin Center for Space Automation and Robotics and similar institutions around the country, then known as Centers for the Commercial Development of Space.

I would bring to the board a combination of legal training, federal government experience and work for the private sector. After leaving Senator Kohl's office, I graduated magna cum laude from Georgetown University Law Center and have since become a partner at Foley & Lardner LLP. My practice has been focused on serving clients in regulated industries, particularly in the electric, natural gas and telecommunications fields. I am the Vice Chair of our national Energy Industry Team. I stay abreast of developments in space policy and the aerospace industry, in part, through memberships in the Air and Space Section of the American Bar Association, the Planetary Society and the National Space Society.

There have not been any meetings yet of the Wisconsin Aerospace Authority board. I very much look forward to meeting the fellow board appointees and working with them in the future. There is no blueprint, other than the legislation, for what it is that we are to accomplish. The legislation does spell out a number of duties which the Authority needs to fulfill. My hope is that, if our nominations are approved, the board will hold an initial organizing meeting in the very near future so that we can get under way. The Wisconsin Aerospace Authority can take the lead in helping establish our state in a field full of promise.

I am honored by this nomination and am committed to serving Wisconsin on the board of the Wisconsin Aerospace Authority. I would be happy to answer any questions.
